

Burns Canyon Road Project

2018

P.O Box 333

Pioneertown, CA 92268

Well it's that time of year again to ask for road fund donations. The weather this year was not as bad as we thought it would be. So we held back most of the spending for fall in hopes of avoiding off road folks who seem to take pleasure in overusing our road. That did not come to play because of the various storms.

Let me start by welcoming our new neighbors. For the new neighbors there is no recommended amount for the donation, so please give what you can. As a matter of record, folks give between \$100-\$800 depending on the size of the group or the amount of land they have. We currently have \$3300 dollars in the fund. Generally, we spend between \$4000-\$5000 maintaining the road throughout the year.

The pond or water supply in Rattlesnake Canyon evidently needs some maintenance and we previously authorized some funding for that effort. If you wish to continue that please write "water" in the note section of your donation. The current road project plan will include widening of the road to two lanes for safety purposes. If that is a problem for you please write a letter in regards to this issue with your donation.

As always I would like to thank all of those who give to the road fund. As our road becomes more utilized by off roaders the challenge will become greater. We will continue to do our best to keep our road in the best condition possible. If you have any information in regards to off road clubs that use our road, please let me know so I can add them to our mailing list for the road fund.

Please continue to make checks payable to the "Burns Canyon Road Fund" And address all correspondence to the address at the top of the letter. I cannot and will not accept any payment made to me, or any cash donation. If it were not for the donations and the concerted effort of all involved I am certain the road would no longer remain passible.

If you are giving money to the folks working on the road, be advised they have already been paid for the work. We are in need of dirt donations, so if you have some to donate please let me know. Send any correspondence to the road fund P.O. Box. If anyone wishes to pick up rocks or trim trees entering the road way, fill in holes, pick trash, etc. These tasks can be completed at your convenience at any time.

Let me close by saying that I appreciate everyone's help on the road and I look forward to doing more work this year, finances permitting.

Note: Thanks to the effort of Bob Hampton and his amazing tractor work our road has stayed in the condition that it is in. I would like to have "First Class Minors" recognized as our largest donor for our road fund and with that thanks!

Jehu Bloodworth
